SKILLS

Languages: Python, C, C++, Java, JavaScript
Frameworks: HTML and Tailwind CSS, NodeJS, React, Express.js
Tools/Platforms: MySQL, MongoDB, Git and GitHub, Figma
Soft Skills: Problem-Solving, Critical Thinking, Leadership, Adaptability

PROJECTS

Nivana | React, GSAP, Framer Motion, Tailwind CSS, JavaScript | GitHub Jul'25

- Developed mental health assessment system using validated questionnaires and logic.
- Implemented real-time risk classification, improving assessment accuracy by 35%.
- Designed personalized guidance engine mapping symptoms to actionable coping strategy.
- Reduced user response time by 40% through optimized API calls and state handling.
- Improved user engagement by 30% via intuitive UI and clear progress feedback.

Animated Game Intro Page | React, GSAP, JS | GitHub Feb'25

- Created an animated GTA V intro page using React and GSAP transitions.
- Utilized GSAP timelines for precise control of scene animations and visuals.
- Implemented cinematic motion effects replicating game-style with smooth animations.
- Developed interactive UI elements using modular React and optimized JavaScript logic.
- Enhanced user engagement through dynamic motion and responsive front-end design.

Mental Health Simulator | Java | GitHub Jan'25

- Built a Java GUI mental health simulator using Swing for interaction.
- Implemented modular classes handling state changes and user decision logic.
- Added intuitive interface elements improving accessibility and overall user experience.
- Designed scenario-based choices to simulate emotional responses and user outcomes.
- Developed event-driven workflows, smooth navigation and responsive simulation behavior.

TRAINING

CipherSchools Jun'25-Jul'25
Java with OOPs

- Learned core Java fundamental with object-oriented programming focus.
- Solved multiple Java coding problems to strengthen logical skills.
- Applied OOP concepts like inheritance and polymorphism in exercises.
- Developed a functional Java project using clean coding practices.
- Worked with classes, objects and methods to build modular programs.

CERTIFICATES

Cloud Computing | NPTEL | Link Oct'25
Complete Web Development Course | Udemy | Link Sep'25
Java with OOPs | CipherSchools | Link Jul'25

ACHIEVEMENTS

Secured 4-Star Rating in Java on Hacker Rank Nov'25
Improved algorithmic thinking via complex problems.
CodeChef 3-Star Rating in DSA Oct'25
Gained structured understanding of core DSA
Solved 350+ DSA problems Aug'25
LeetCode, GFG, takeuforward and Codeforces.

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: ***7.25*** *Aug'23 – Present*

St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
Intermediate; Percentage: ***66.4*** *%* *Mar'22 – Mar'23*

St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
Matriculation; Percentage: ***94.6%*** *Apr'20 – Mar'21*
