Skills

Languages: C, C++, Java, JavaScript, TypeScript
Frameworks: Tailwind CSS, NodeJS, React, Express.js
Tools/Platforms: MySQL, MongoDB, Git and GitHub, Figma, Postman
Soft Skills: Problem-Solving, Critical Thinking, Leadership, Adaptability

Projects

Planova | PostgreSQL, Express.js, React, Node.js | GitHub Feb'26

- Built full-stack project management system using PERN stack for collaborative workflows.
- Implemented 3-level role-based access control for secure task flow and permission control.
- Designed a hierarchical workflow system supporting management of 100+ tasks per project.
- Developed a Kanban-style board, improving task tracking and project visibility by 30%.
- Optimized REST APIs and PostgreSQL queries, reducing task retrieval and latency by 35%.

Nivana | React, GSAP, Framer Motion, Tailwind CSS, JavaScript | GitHub Jul'25

- Developed mental health assessment system using validated questionnaires and logic.
- Implemented real-time risk classification, improving assessment accuracy by 35%.
- Designed personalized guidance engine mapping symptoms to actionable coping strategy.
- Reduced user response time by 40% through optimized API calls and state handling.
- Improved user engagement by 30% via intuitive UI and clear progress feedback.

Mental Health Simulator | Java | GitHub Jan'25

- Built a Java GUI mental health simulator using Swing for interaction.
- Implemented modular classes handling state changes and user decision logic.
- Added intuitive interface elements improving accessibility and overall user experience.
- Designed scenario-based choices to simulate emotional responses and user outcomes.
- Developed event-driven workflows, smooth navigation and responsive simulation behavior.

Training

CipherSchools Jun'25-Jul'25
Java with OOPs

- Learned core Java fundamental with object-oriented programming focus.
- Solved multiple Java coding problems to strengthen logical skills.
- Applied OOP concepts like inheritance and polymorphism in exercises.
- Developed a functional Java project using clean coding practices.
- Worked with classes, objects and methods to build modular programs.

Certificates

Cloud Computing | NPTEL | Link Oct'25
Complete Web Development Course | Udemy | Link Sep'25
Java with OOPs | CipherSchools | Link Jul'25

Achievements

Secured 4-Star Rating in Java on Hacker Rank Nov'25
Improved algorithmic thinking via complex problems.
CodeChef 3-Star Rating in DSA Oct'25
Gained structured understanding of core DSA
Solved 350+ DSA problems Aug'25
LeetCode, GFG, takeuforward and Codeforces.

Education

Lovely Professional University Phagwara, Punjab
*Bachelor of Technology - Computer Science and Engineering; CGPA: **7.36*** *Aug'23 – Present*

St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
*Intermediate; Percentage: **66.4** %* *Mar'22 – Mar'23*

St. Xavier's Senior Secondary School Balrampur, Uttar Pradesh
*Matriculation; Percentage: **94.6**%* *Apr'20 – Mar'21*
